

Portland East Lady Panthers Basketball Mission Statement 2019

Below is our mission statement as a program. Please read over this statement with your player. We are so resolute and passionate in where we are going, that we want families who will live this mission with us. On the court, in the bleachers, in their public lives, in social media, in their interactions with opponents and officials. If you believe, as we do, that this is a place your child can thrive, a place you can represent as a fan, parent, and part of our mission, then we look forward to seeing your athlete on the court at evaluations.

We are building a respected program of competitors.

We believe in positivity, dedication, and hard work on and off the court.

We believe the role of sports is to mold young people into cooperative, persistent young adult leaders.

At the end of your child's experience we want them to have gained confidence, maturity, skill, and responsibility for their actions.

We believe the following are the most important traits in an athlete in our program: Integrity, grit, good body language, willingness to learn, and positive example to peers in everyday life.

We believe the role of parents is to love and support your player all day, every day. Support ALL players on your child's team when you're on the sideline and at home. Keep your comments positive at games, after practice, and on social media. Let the coaches' coach and the referee's do their job regardless of your opinion of it. Your player is important to our team but not irreplaceable; don't ruin that for them.

We believe the role of the coaches is the teach, lead, and love each player on and off the court.

We believe the role of the players is to be a great teammate by learning the game, improving themselves, and serving their teammates in all aspects.
