

Clever

You can use Clever from home if you use Chrome and go to this link: clever.com/in/sumnercounty

You can either watch the videos or follow the directions.

How to set up your Class page, including how to add a link directly to your EasyCBM page:

Students are pre-loaded in your account. If you create a Class Page it will automatically show up on their Clever Home screen.

Video: https://drive.google.com/file/d/1sGC4c1ME5L1-E0jxopTxN_D1zLNDYTXw/view?usp=sharing

At the top of your screen click "My Page" or "Set up Teacher Page"

- Enter the Page Title and Page Description
- Add links you commonly use by clicking "Add Resource". Generic links to most used sites, like EasyCBM, appear on student pages already. You can post a link directly to your EasyCBM page eliminating one step for them.

- Choose an icon
- Type or Paste the URL (web address) for
- Select a category
- Click "Add Resource"

Be sure to make your page "Visible to Students" in the upper right hand corner!

How to help a student that is having log in issues:

Clever eliminates the issue of students not being able to log in to Active Directory or other commonly used programs.

Video: <https://drive.google.com/file/d/16maKDTRRccAlsJKmJP1J3U4ukYmPB07C/view?usp=sharing>

Directions:

- Log in with your Active Directory
- Double click the Google Clever icon
- Click "Get help signing in!" (same on Chromebooks)
- Click "Students: Log in with a Backup Code"
- Enter the students code

This will automatically pull up their Clever account, no passwords needed.

To find a students code log in to your Clever account (this can be done on the students device or another, either is fine). On the far right click the blue "Help a Student" button. Locate the student, click on their name. The code appears below the blue laptop.
